Dimensions in mm

### 1 Scope and field of application

This standard specifies dimensions and technical delivery conditions for screw plugs which are intended to be screwed into holes with parallel thread as specified in DIN 13 Part 5, 6 or 7, or ISO 228 Part 1. Such plugs may be used together with seal rings as specified in DIN 7603, type and material of which are to be selected as a function of the operating conditions (e.g. pressure, temperature, fluid with which the threaded parts are in contact, etc.).

### 2 Dimensions and designation
